## REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior art Hower, Jr U.S. Pat. No. 5,467,434 discloses a printing arrangement of the type having a printer bank with a plurality of printers which are respectively associated with printer profiles.

IBM Technical Disclosure Bulletin TDB-ACC-NO: NN95094425 discloses a collaborative multimedia annotation using a centralized document server.

JP02002023969A, Ichioka Hisashi discloses a document distribution/printing system that has a registering means for registering document data to be distributed in a shared printer from a distribution source terminal equipment.

However, neither Hower nor IBM Technical Disclosure Bulletin and Ichioka singularly or in combination fail to disclose the recited feature:

As per claim 1 "wherein identifying the at least one resource includes identifying at least one printer which provides the print services, wherein defining the at least one attribute includes defining at least one printer attribute of the at least one printer, and wherein recording the real-time status and the historical status includes recording at least one of a quantity level of print medium, a status of a print media path, a quantity level of marking material, and a status of an input/output connection of the at least one printer".

As per claim 11 "wherein the availability system is adapted to record a status of the at least one printer attribute of at least one printer configured to provide the print services, including at least one of a quantity level of print medium, a status of a print media path,
